Subject: RE: CCS Class VI Permit

Hi Nalin,

EPA developed the cost estimation tool that you mentioned for internal agency use to help us evaluate information submitted with a permit application. It is not intended to be released to potential permit applicants. You can find our financial responsibility guidance for Class VI applicants at <https://www.epa.gov/sites/production/files/2015-06/documents/uicfinancialresponsibilityguidancefinal072011v.pdf>.
